FOR IMMEDIATE RELEASE

Announcing a dividend increase of 50% over last years dividend to active participants of the IWA/Great Central Fabricare Industry Workers' Compensation Safety Group...

April 4th, 2008 - Adam Weber, President of Irving Weber Associates said – “Whereas dividends can never be guaranteed, this 15% dividend, which will be paid by mid-may, marks the 57th consecutive dividend to active participants of IWA managed workers’ compensation programs. These dividends, along with the upfront discounts and rate deviations enjoyed by our group participants have produced a substantial savings off the cost of our policyholder’s workers’ compensation insurance for the June 2006 – June 2007 experience period.

Dividends are the result of the diligent application of safe practices, outstanding management and the cooperation of all participating policyholders in the group.”

Workers compensation insurance under this program, which is underwritten by Great Central Insurance Company (rated “A” Excellent by A.M. Best), a member of the Argo Group, is just a part of an overall package of specialized insurance products that Irving Weber Associates offers to protect today’s drycleaners, commercial laundries, linen supply, uniform rental and restoration drycleaning operations, which can be accessed through the broker of the policyholders’ choice.

Weber continued “our growing list of endorsements; currently 15 of the country’s top associations and franchisee operations continues to support our purpose and goals of being the premier insurer to fabricare specialists nationwide.”

Irving Weber Associates has been protecting the Fabricare Industry through specialized insurance programs for 62 years. For further information on their comprehensive programs, [you or your current broker](#) (except PA and FL) can call Irving Weber Associates at 1-800-243-1811 and speak to Keith Camacho.
